Dear Hiring Manager,

Are you looking for someone whose main objective is to develop a data-centric career and is willing to make the necessary efforts to achieve it?

- has work experience in Telecom and Fintech industry as a business analyst in Sweden utilizing programming languages and data analytics tools such as **SQL, Python, R, Power BI, Qlik Sense, and Excel** to prepare business critical reports like consumer performance and sales quality report, monitoring data sources to effectively collaborate with cross-functional teams to identify business needs, design solutions and implement data-driven strategies for growth.
- have working proficiency in Swedish and holds a Swedish work permit.
- thrives in a multicultural environment, taking responsibility independently when required, and maintains a strong team spirit.
- has practical knowledge of creating front-end websites using HTML, CSS, and basic javascript.
- has familiarity and practical experience with the latest AI tools like Midjourney, descript and content creation tools like Latex, Overleaf, Photoshop, Illustrator, InDesign, Canva, Adobe Premiere Pro, and Final Cut Pro.
- can craft captivating presentations and digital content for business stakeholders, potential clients and customers effectively raising brand value, solidifying customer loyalty, and fostering recurring sales.
- is personally committed to alleviating global poverty by devoting spare time to supporting orphans and other social contributions.

Then I am eager to discuss any opportunities to collaborate with your team. Please get in touch with me for any further information or clarification. Here is the link to my resume for your reference: **https://github.com/Mahe18/resume/blob/master/Resume.pdf**

I appreciate your time and consideration in reviewing my application.

Sincerely,

Hasan Mahmud Manna
